Magare Brian

GIS Specialist, Web Developer, and Technical Writer with expertise in geospatial data analysis, interactive web mapping, and software documentation. Proficient in GIS tools (QGIS, ArcGIS), web development (React, Node.js, Leaflet), and automation (Python). Experienced in remote work, client communication, and delivering tailored geospatial solutions.

Experience

Remote Maven, Nairobi, Kenya | 2025 – Present

GIS Specialist & Web Developer

- Developed interactive web maps using Leaflet and Mapbox for diverse client projects.
- Built custom GIS solutions for spatial data analysis and visualization.
- Created responsive web applications with React and Node.js.
- Automated geospatial workflows using Python scripts to improve efficiency.

Freelance, Fiverr | 2024 – Present

Technical Writer & Virtual Assistant

- Wrote comprehensive technical documentation for software products and APIs.
- Managed client communications, scheduling, and project coordination.
- Provided GIS data processing support for research and development projects.
- Developed user manuals and troubleshooting guides for tech products.

Geo Solutions Kenya, Nairobi | 2023 – 2024

GIS Technician

- Collected and processed geospatial data using GPS and remote sensing techniques.
- Designed thematic maps for urban planning and environmental projects.
- Maintained spatial databases using QGIS and PostgreSQL.
- Assisted in field surveys and data validation.
